SOLICITUDE

Let me direct your attention to a horrible scene,
That has all the aspects of a feverish dream,
One Friday, on Calvary, like a hospital ward,
Three men were dying, among them, Our Lord.
It was the worst case of neglect that was ever recorded,
These patients, whose pains Pontius Pilate has ordered,
On three hard beds in the shape of a cross,
Without pillow or blanket, no nurse would endorse.
Now the one in the center our attention should claim.
Jesus of Nazareth, the chart gave His Name.
Some cardiac condition, examiners find -----
Excessive love for all mankind.
Now, you who are nurses, just listen to this ----
Unsterilized nails pierced His Feet and His Wrists!
And, what about this for cruel medication ----
Vinegar and gall was His Lips' alleviation!
And His Back was swollen from the blows men dealt,
But no soothing ointment to lessen a welt,
No cold compresses were applied to His Eyes ----
The world's greatest Lover just hangs there and dies.
Not a grain of morphine, not a tourniquet set,
As Mary's Boy is bleeding to death.
The chart then concludes, as further we see
The sad Man from Nazareth dies about three.
His visitore then walk slowly away,
His Mother and Magdalen and John so they say,
Now, don't blame the Jews for this frightful neglect ---
Our sins did it then, our sins do it yet.
This treatment of Christ demands reparation,
It falls to you nurses of this generation.
Whenever you see anybody in pain,
Just make believe it is Calvary again ----
And do for that patient what you wish they had done
For that Man in the center, Who was Mary's Son.
It will thrill His angels; it will please Him too ---
Just keep at it until life is through,
And when after death your souls go on high,
He will cap you again in His home in the sky.

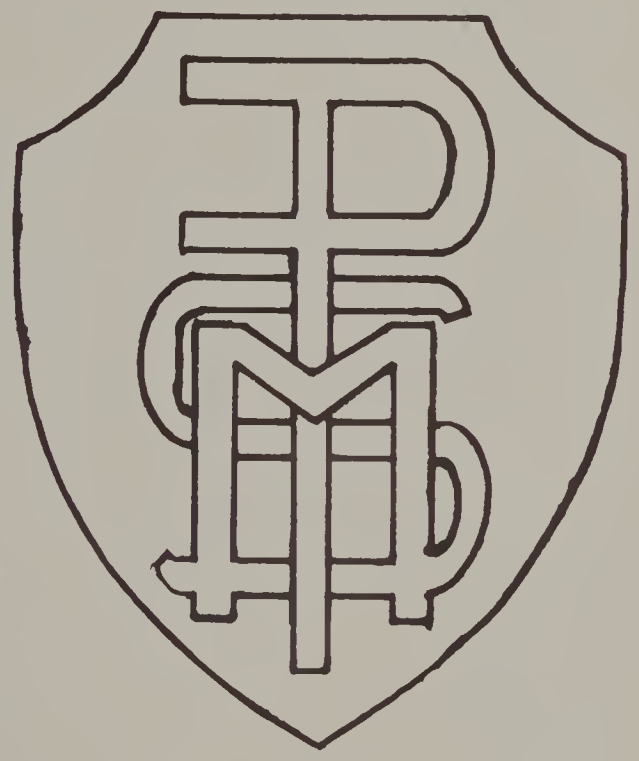
Appreciation

With the utmost respect, we the graduating class of 1958, wish to express to the staff doctors our sincere appreciation for the interest, help, and friendship you have given to us during our three years at St. Mary's.

Theory alone is not sufficient in any nursing program. You have willingly shared with us of your vast store of knowledge, experience, and advice necessary to make our program complete.



To the Pallotine Missionary Sisters we wish to express our gratitude for the spiritual ideals you have endeavored to instill within us.

To the faculty we wish to express our many thanks for the excellent guidance in our professional education and clinical supervision. May we always be a credit to the professional ideals you have laid before us.

SISTER MARY FRANCES, C. M. P., R. N., B. S. N. E.

REV. A. H. GOLDSCHMIDT

In appreciation to you, for having been our best friends as well as our Chaplain and Director. In the years gone by, you have prepared many students for the future in many more ways than one. You were always ready to help us and your duties were far more than those required of you. We could never repay you for all your services through the years, but, please know that a few words can hold much meaning.

Class History

The past three years have gone by so very fast most of us have really not had much time to think of many things that happened - things we thought we would never forget. Let's bring back some memories that are all outstanding to each and everyone of us.

Take for instance that day we received our letter of acceptance to Saint Mary's School of Nursing. How thrilled we were! Then followed days of preparation, anticipation, and hours of wonder.

As we walked into the nursing home for the first time, everything and everyone was so very new. Some of us were eager to begin, but others were reluctant and unsure of what the future held for them.

A new name was given to us - Preclinicals or "Probies" as we soon learned. For the next six months the name was ours and it really fit us. For those six months were long and we tried very hard and worked diligently to make the grade.

After about three and a half months of study, we were finally getting our first work - as a nurse, in the hospital. Some of us were anxious to get started and others were very confident, but then again, some were rather timid and unsure of how they would get along.

I know many of you can remember incidents happening that now seem funny to you, but at the time were not so funny. Thank goodness for the older students! They really helped us a lot.

Remember what happened six months from the day we entered the School of Nursing? That's right - Capping. A day we will all treasure forever. For on this day a cap was put on our head to signify that we were now freshmen and had conquered all of our many fears of non-acceptance. At last the name "nurse" was ours. To us our cap was like a crown and we wore it as such.

As the weeks flew by we learned many things - many procedures and new ideas of nursing that comes with experience. We were learning every day.

Finally we became juniors and were very proud. As a new class of "probies" followed, we tried to help them as the juniors and seniors before us had done, for we knew that teamwork was essential.

A very exciting and wonderful thing happened to us as juniors. I know none of us will ever forget. We had looked forward to it from the day we entered. You guessed it - our affiliation period. Our class was divided into small groups and sent to Our Lady of Peace Hospital in Louisville, Kentucky for three months to learn a different type of Nursing, Psychiatry. It was a wonderful and exciting experience to each of us and we all learned quite a bit. Many fond memories have been carried from that experience, by all of us.

As we came back to Saint Mary's we had a new concept of Nursing and all of our abilities were used to carry out our duties. Our studies became more technical and our practical experience covered more areas, for by now we were working in special departments.

Another day to remember was the day we received our black band to signify our becoming full-blooded seniors. We knew from the minute our band was placed on our cap; much more would be expected of us by everyone. It gave confidence to us and we worked very hard to live up to the title, "Senior."

This was a year to remember. Our annual was our main objective. It took a lot of work and time to raise enough money to have it made, but somehow we made it.

There are so many things to remember, I know there are little incidents I think of that happened as we read about the past; Don't You?

Many hours of study, hours of laughter and social events, all of which contributed to our stay here.

Then Graduation came and we were all so very proud that we had "stuck it out" for now we were Graduates and our dream of being a Nurse had come true.

We then left Saint Mary's to lead our lives, scattered here and there, but remembering our three wonderful years here.

As we read this history, many thoughts are given to every classmate, thinking of them and hoping they are serving in their line of duty successfully and happily.

Class Prophecy

Getting aboard the U. S. S. S. Xicusistz, are three weird, space travelers, Wanda Riffe, Linda Fleshman and Wynemia Stapelton. These travelers, all St. Mary's graduates, decided to take a trip around the universe.

They are greeted at the door by the ships interplanetary flight nurse, Linda Ward. Aboard the ship is Doctor Phyllis Blevins, who is now a specialist in green cheese poisoning. This famous doctor is accompanied by her assistant, Professor Marie Bennett, who has done extensive work in the field of Rodentology.

Sitting behind us are the former Nancy Pat Thurbon, and Judy Coffman and their handsome husbands. They are traveling from planet to planet, making a useless survey of the mental capacity of planetary morons. Seated on our right are President Vinson Stuart and the First Lady, our former Katy Lunsford. They are traveling to Mars to settle the dispute against segregation between Americans and Martians.

After a sudden epidemic of South American sickness, transmitted by Deloris Evans, now Mrs. Ron Williamson, we stopped at the Martin and Mahone Health Clinic, the first clinic to be suspended in mid air. They were treated by Doctor Mary Meeks, who is head medical advisor of the Royal Space Cadets.

Continuing on our merry way to Mars, we passed Doctor Enrico Aquado and the former Joan Ball in their private space ship. Suddenly a voice was heard over the intercom. Our captain, Judy Kiessling, informed us that to fasten our safety belts for the landing on Mars. We were greeted by President of Mars, Marilyn Pierro, who took us to the Hotel Belladonna, which is run by Donna Rupe.

Next morning we were taken on a tour of the Martian Medical Center by head public health nurse, Miss Bobbe Ray. Next she took us on a guided tour to the Smithsonian Institute of Sputnology, operated by the five brilliant scientists, Valerie, Clara, Barbara, Betty, and Alice Smith. Next door is the Winkle, Dinkle, Tinkle Nursery School, owned and operated by Julie Carver and Kay Penco.

After a brief stay, we blasted off toward Pluto, where Sally Harrison and Pat Hamilton have established a universally famous canine infirmary, where Barbara Higginbotham is chief vetinarian. After a thorough study of their latest techniques we visited the Coffman-Burdette Fashion Salon, where Margaret and Sara model the latest fashions for space travel. After purchasing a new antennae for our spring helmet we preceded on to Jupiter.

As we landed we found that a holiday had been declared on Jupiter due to the landing of Florence Cochran. Miss Cochran is the first lady to go through space without a space ship. During our stay we had difficulty with our space ship. Guess who our mechanic was. Miss Anita Legato, who left nursing for better pay.

A wonderful news item appeared while we were there. Mrs. Carroll Spanyer, former Miss Carol Walker, was named the mother of the year, due to the birth of her eighteenth son. It was delivered by midwife, Ann Sullivan.

Our next interesting stop was Saturn. We heard here that Nancy Lytton and Shirley Pennington are official cleaners of the stars along the Milky Way. Miss Maxine Chafin runs a detective agency for tracking down AWOL space cadets. We were surprised to hear that Tone Crnkovich was a medical missionary to earth.

Next we moved over to Neptune where we find Helen Hoskins is nurse for King Neptune. At last, running out of Travelers Checks, we turned to earth, where we found Miss Jo Ann Lovejoy doing public health nursing in the back hill of Crab Orchard. She was quite fascinated by our space ship.

We were surprised to learn that the best seller of the month was Nancy Burke's book "Mother and Childhood Disease." Miss Barbara Boyer and Cornelia Bird are developing plans for a suspended school of nursing which will be out of this world. Miss Diane Collins made headlines in Ripley's Believe It Or Not, "I Was A Student Nurse." We find that Miss Gwynne Clark is now assistant to the surgeon general, Dr. Burney.

This ends our merry trip around the universe in eighty days. We have certainly enjoyed our meeting with all our former classmates, and are happy to be able to share them with you.
